

TC-9D / TC-10D / TC-12D / TC-14D

Towmaster's TC-series provides the perfect value combining the features you need with the quality a Towmaster built trailer offers. This model works well for skid-loaders, mini-excavators and other small equipment. The TC drop-deck is built on a solid cold-formed one-piece I-beam frame with 3-inch I-beam crossmembers and treated pine wood deck. It includes Dexter[®] Torflex[®] rubber torsion axles, bolt-on parking jack, and solid-bar ramp hold-ups.

Formed frame and tongue provide a strong and integral structure for the trailer.

Sealed battery break-away system charges while plugged into the tow vehicle and can be checked at the press of a button.

DROP-DECK

Heavy-duty one-piece formed fender with backing plate keeps tire debris off equipment.
